

## ONE Access with the Charlotte Mecklenburg Library

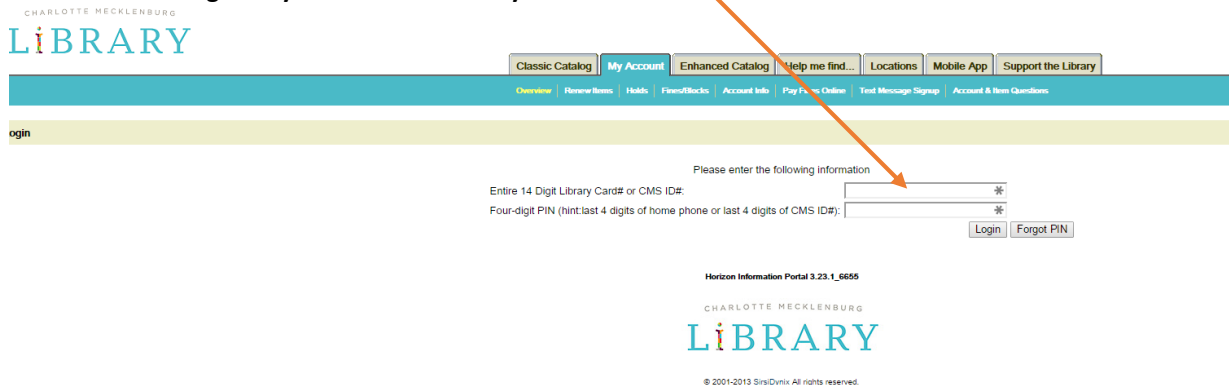

- Partnership with the public library which allows CMS students to borrow 10 print or audio books (not DVDs or music CDs)
- There are no overdue fines, but users are responsible for lost book fees
- All libraries are open  
M-Th 9 - 8  
Fri-Sat 9 - 5
- Some larger regional library branches are open on Sundays from 1 - 5 during the school year from Labor Day through Memorial Day

### How to Access Your One Access Account

1. Go to <http://cmlibrary.org>
2. Click **Account**

3. Enter Your **CMS Student ID #**
4. Enter the **Last 4 digits of your Student ID # as your PIN**

5. Click on **Resources**. With your CMS student ID number you have access to all of the online databases. Here are some which we think would benefit you as a student pursuing articles related to the ocean acidification/ocean chemistry project.

**Online databases which relate to general science, chemistry, and/or oceanography through ONE Access at the Charlotte-Mecklenburg Library:**

| <b>Newspaper Article Databases</b>               | <b>Description</b>   |
|--|--|
| <i>InfoTrac Newstand</i>                         | Full-text access to major international and U.S. regional, national, and local newspapers, as well as thousands of images and radio and TV transcripts (1985-Present)  |
| <i>New York Times</i>                            | Full-text New York Times articles from 1980-Present  |
|  |  |
| <b>General Research Database</b>                 |  |
| <i>SIRS Knowledge Source</i>                     | Articles, primary sources, websites and graphics   |
|  |  |
| <b>Subject Specific Databases</b>                |  |
| <i>Access Science</i>                            | Covers all major scientific disciplines and includes 9,000+ encyclopedia articles, research updates, links to primary research material, plus videos, animations, charts, images, and biographies of scientists.   |
| <i>Gale Virtual Reference Library</i>            | Database, in e-book format, of encyclopedias, almanacs, and specialized reference sources for research topics on the arts, biographies, education, the environment, history, medicine, multicultural studies, the nation and the world, religion, science, and social science. |
| <i>GreenFILE</i>                                 | Information covering all aspects of human impact to the environment. Its collection of titles include content on global warming, green building, pollution, sustainable agriculture, renewable energy, recycling, and more.  |
| <i>ProQuest Biology Database</i>                 | Research on animal behavior, aquatic life and fisheries, biochemistry, ecology, plant science, toxicology, virology, microbiology, health and safety science, entomology, and more.  |
| <i>ProQuest Environmental Science Collection</i> | Articles plus searchable charts, figures, graphs, maps, photographs and tables representing all major environment topics.  |
| <i>ProQuest Science</i>                          | Applied and general science articles covering topics such as global warming, alternative energy sources, robotic engineering, genetically modified food, and more.   |
| <i>Science in Context</i>                        | Reference content plus magazines, journals, news sources, experiments, and more. Covering earth science, life science, space, technology, mathematics, science, history, and biography.  |
